

SPE Young Professional Technical Presentation Contest 2011

September 29, 2011

“Auditorium Room 609”, Energy Complex Building C

12:45 – 13:15	Registration
13:15 – 13:25	Opening speech by Dr.Vinit Hansamuit, PTTEP Vice President, Reservoir Engineering Dept.
13:25 – 13:30	***Short break for preparation*** (5 minutes)

Session I

13:30 – 13:50	Risk Assessment of Drop Object onto Live Pipeline with Application of Kinetic Energy Distribution <i>Kathawut Weerayutwattana</i>
13:50 – 14:10	Application of Formation Testing while Drilling in the GOT, North Malay Basin <i>Prawit Chansawad</i>
14:10 – 14:30	1D Thin Bed Analysis using High Resolution Electro-Image Logs <i>Soontorn Promkhot</i>
14:30 – 14:50	A Study on Reconstruction of a Missing Well Logging Curve Using Artificial Neural Network (ANN) <i>Nicha Nakapraves</i>

14:50 – 15:05 *** Coffee Break 15 minutes ***

15:05 – 15:10 *** Lucky Draws 5 minutes ***

Session II

15:10 – 15:30	Well Productivity Prediction for Laminated Reservoirs using High Resolution and Electrical Image Logs <i>Suchart Chokthanyawat</i>
15:30 – 15:50	Centralized Electrical Network Control and Motoring for S1's Power System <i>Niyom Kanokwareerat</i>
15:50 – 16:10	Application of Experimental Designs on Design Optimization of a Horizontal Well in the Gulf of Thailand <i>Jirasak Arunmongkol</i>
16:10 – 16:30	Value of Formation Pressure while Drilling for Drilling Optimization & Reservoir Characterization <i>Tanabordee Duangprasert</i>

16:30 – 16:40 ***Judges to select winners & Award preparation*** (10 minutes)

16:40 – 16:50 Award announcement

15:05 – 15:10 *** Lucky Draws 5 minutes ***

17:00 – 17:15 Closing speech by Ronald The, SPE Thailand Section Chairman
